Ph.D. Geography and Botany, University of Illinois (1953)
 M. A. Geography, University of Illinois (1950)
 A. B. Geography, Colgate University (1949)

Academic Appointments

1993 - Professor Emeritus, Syracuse University
 1971 – 1993 Professor of Geography, Syracuse University
 1959 – 1971 Associate Professor of Geography, Syracuse University
 1958 - 1959 Associate Professor of Geography, University of Georgia
 1953 - 1958 Assistant Professor of Geography, University of Georgia

Honor: 1955 – 1956 Post-Doctoral Fellow, Johns Hopkins University

Specialties: Environmental Geography and Taxonomy of Gymnosperms

Books and Monographs:

A Geography of Plants and Animals, 1970.
 Gymnospermes, Flore de la Nouvelle-Calédonie et Dépendances, 1972.
 Mapping the World's Vegetation, 1975.
 Coniferales, Flora Malesiana, 1988.
 It's Hard to Believe in Infinity, 1992.

Major articles:

The External Morphology of Coniferous Leaves, *Phytomorphology* 3 (1953) 1-20.

The Ozark Upland in The North American Midwest, *Wiley* (1955) 212-217.

Where Sherman Passed By, *Geog. Rev.* 47(1957) 381-395.

The Status of Conifers in Vegetation Classification, *Annals Assoc. Am. Geog.* 47 (1957) 145-149.

Parasitic Conifer Found in New Caledonia, *Science* 130 (1959) 97.

New Zealand Focus 11(1960) 6pp.

The Primitiveness of Polycotyledony Considered with Special Reference to the Cotyledonary Condition in Podocarpaceae, *Phytomorphology* 12 (1962) 196-300.

25 Jahre Wandlung in der Geographie in der Stadt Syracuse, New York, *Raumforschung und Raumordnung* 21 (1963) 225-228.

World Vegetation in One World Divided, *Blaisdell* (1964) 442-443, map on pp. 16-17.

The Relationships of *Fitzroya cupressoides* and *Diselma archeri*, *Phytomorphology* 15 (1965) 414-419.

The Urban Landscape in Geography of New York State, *Syracuse U. Press* (1966) 90-103.

Australoids, Negroids, and Negroes, A Suggested Explanation of Their Disjunct Distribution, *Annals Assoc. Am. Geog.* 58 (1968) 42-50.

The Variation of Vegetation from Place to Place, *Professional Geographer* 20 (1968) 107-111.

- A Revision of the Malesian and Pacific Rainforest Conifers, I Podocarpaceae in parts, *J. Arnold Arb.* 50 (1969) 274-369.
- The Vegetation Formations of Latin America, *Revista Geog.* 72 (1970) 96-138.
- Gymnospermes, Flore de Madagascar et de Comores, *Mus. Nat. D’Hist. Naturelle* (1972) 22 pp.
- The Moluccan Dammars, *Blumea* 24 (1978) 499-504.
- The Taxonomy of Philippine Coniferae and Taxaceae, *Kalikasan* 7 (1978) 117-152.
- The Species of *Agathis* of Borneo, *Blumea* 25 (1979) 531-542.
- The Endemic Species of *Podocarpus* in New Guinea, *Blumea* (1980) 139-143.
- Ethnic Geography of the Neolithic, *Mankind Quarterly* 22 (1981) 119-143.
- Podocarpaceae, *Flora de Venezuela* 11 (1982) 7-41.
- Studies in the Anatomy of *Parasitaxus ustus* and its Root Connections, *Phytomorphology* 32 (1981: issued in 1983) 85-92.
- The Upper Palaeolithic Revolution, *Mankind Quarterly* 23 (1983) 329-356.
- Podocarpaceae in Pacific Plant Area 4 (1984) 204-217.
- Proposal to Reject *Pinus dammara*, *Taxon* 33 (1984) 337-347.
- A Taxonomic Revision of the Genus *Podocarpus*, *Blumea* 30 (1985) 251-279.
- A Rift Relationship for Earthquakes in Eastern North America, *Geog. Rev.* 77 (1987) 196-208.
- The Podocarpaceae of Costa Rica, *Brenesia* 33 (1990) 119-121.
- Las Podocarpaceae del Peru, *Boletin de Lima* 73 (1991) 57-60.
- Commentary: The Organization of Female Structures in Conifers, *Int. J. Plant Science* 153 (1992) VII-VIII.
- Geographic Views of Human Development, *Human Evolution* 10 (1995) 281-282.
- Gondwanan Conifers on the Pacific Rim in *The Origin and Evolution of Pacific Island Biotas*, Academic Publishing (1996) 261-265.
- A Taxonomic Revision of the Genera *Cycas* and *Epicycas*, *Blumea* 43 (1998) 351-400.
- The Families of the Cycadaceae *Encephalartos* 59 (1999) 7-9.
- A New Species of *Podocarpus* from the Maquis of New Caledonia, *New Zealand Journal of Botany* 41 (2003) 715-718.
- Podocarpaceae in Flora of the Venezuelan Guayana, *Mo. Bot. Gard. Press* 8 (2004) 297-300.
- Dicots and Polycots, *Conif. Quart.* 23 (2006) 28-29.
